THE ALL-NEW 2022 COROLLA CROSS

Introducing your new perfect.

A modern and stylish design with powerful capabilities.

Boasting exceptional versatility and an impressive All-Wheel Drive capability, the all-new 2022 Toyota Corolla Cross introduces a subcompact SUV to the Corolla family that brings you more, wherever you go. Adventure confidently in any Canadian environment with refined driving dynamics, intelligent safety features, and intuitive technologies that provides peace of mind. With its tough, modern exterior design and practical, spacious interior, the stylish Corolla Cross was made to fit your evolving lifestyle.

Learn More

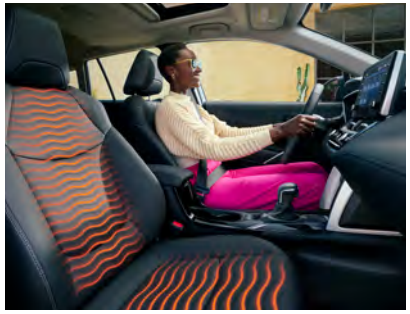
EXTERIOR DESIGN

Made for the urban jungle.

Rugged, yet refined styling that will turn heads at every corner.

The Corolla Cross lets you push the boundaries of your everyday, so you can find your new perfect. This sleek and modern compact SUV features a sporty front end with a distinctive black grille that is flanked by LED lighting. Emphasizing its athletic design are available 18-inch alloy wheels, flared fender arches, and an integrated spoiler in the rear. And just like the rest of its family, this Corolla features a compact, lightweight frame and a sleek aerodynamic shape to improve air flow and reduce drag.

Learn More



INTERIOR STYLING

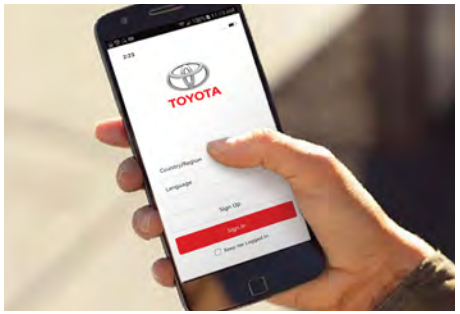
Adventure in pure comfort.

A modern design for life on the go.

The 2022 Corolla Cross features a premium interior with high-quality materials and accents that make the journey just as important and enjoyable as the destination. The spacious cabin includes heated front seats, your choice of single or dual-zone automatic climate controls, available heated leather-wrapped steering wheel, and an available moonroof for stargazing or for soaking in the sun. And with the simple touch of the available power liftgate, Corolla Cross reveals a surprising 608 L of cargo storage (with the 60/40 seats folded down flat), giving you the comfort, versatility, and capability to confidently tackle any adventure.

Learn More

Technology that fits your life.



INTUITIVE TECH

Corolla Cross offers standard tech such as Apple CarPlay™[1] and Android Auto™[1] compatibility, 4.2-inch colour TFT Multi-Information Display, and available features including 8-inch touch-screen display, 9 speakers, JBL® Audio, Smart Key with Push Button Start, and Backup Camera.

CONNECTED SERVICES BY TOYOTA[1]

Staying connected has never been easier with a suite of available features including Remote Connect, Safety Connect®, Service Connect,[2] and Destination Assist to help enhance your driving experience.

BLIND SPOT MONITOR WITH REAR CROSS-TRAFFIC ALERT[3]

The available Blind Spot Monitor with Rear Cross-Traffic Alert uses radar technology to help identify vehicles that may not be visible when changing lanes or backing out of a parking space. When a vehicle is detected, a warning indicator illuminates on the appropriate side view mirror.

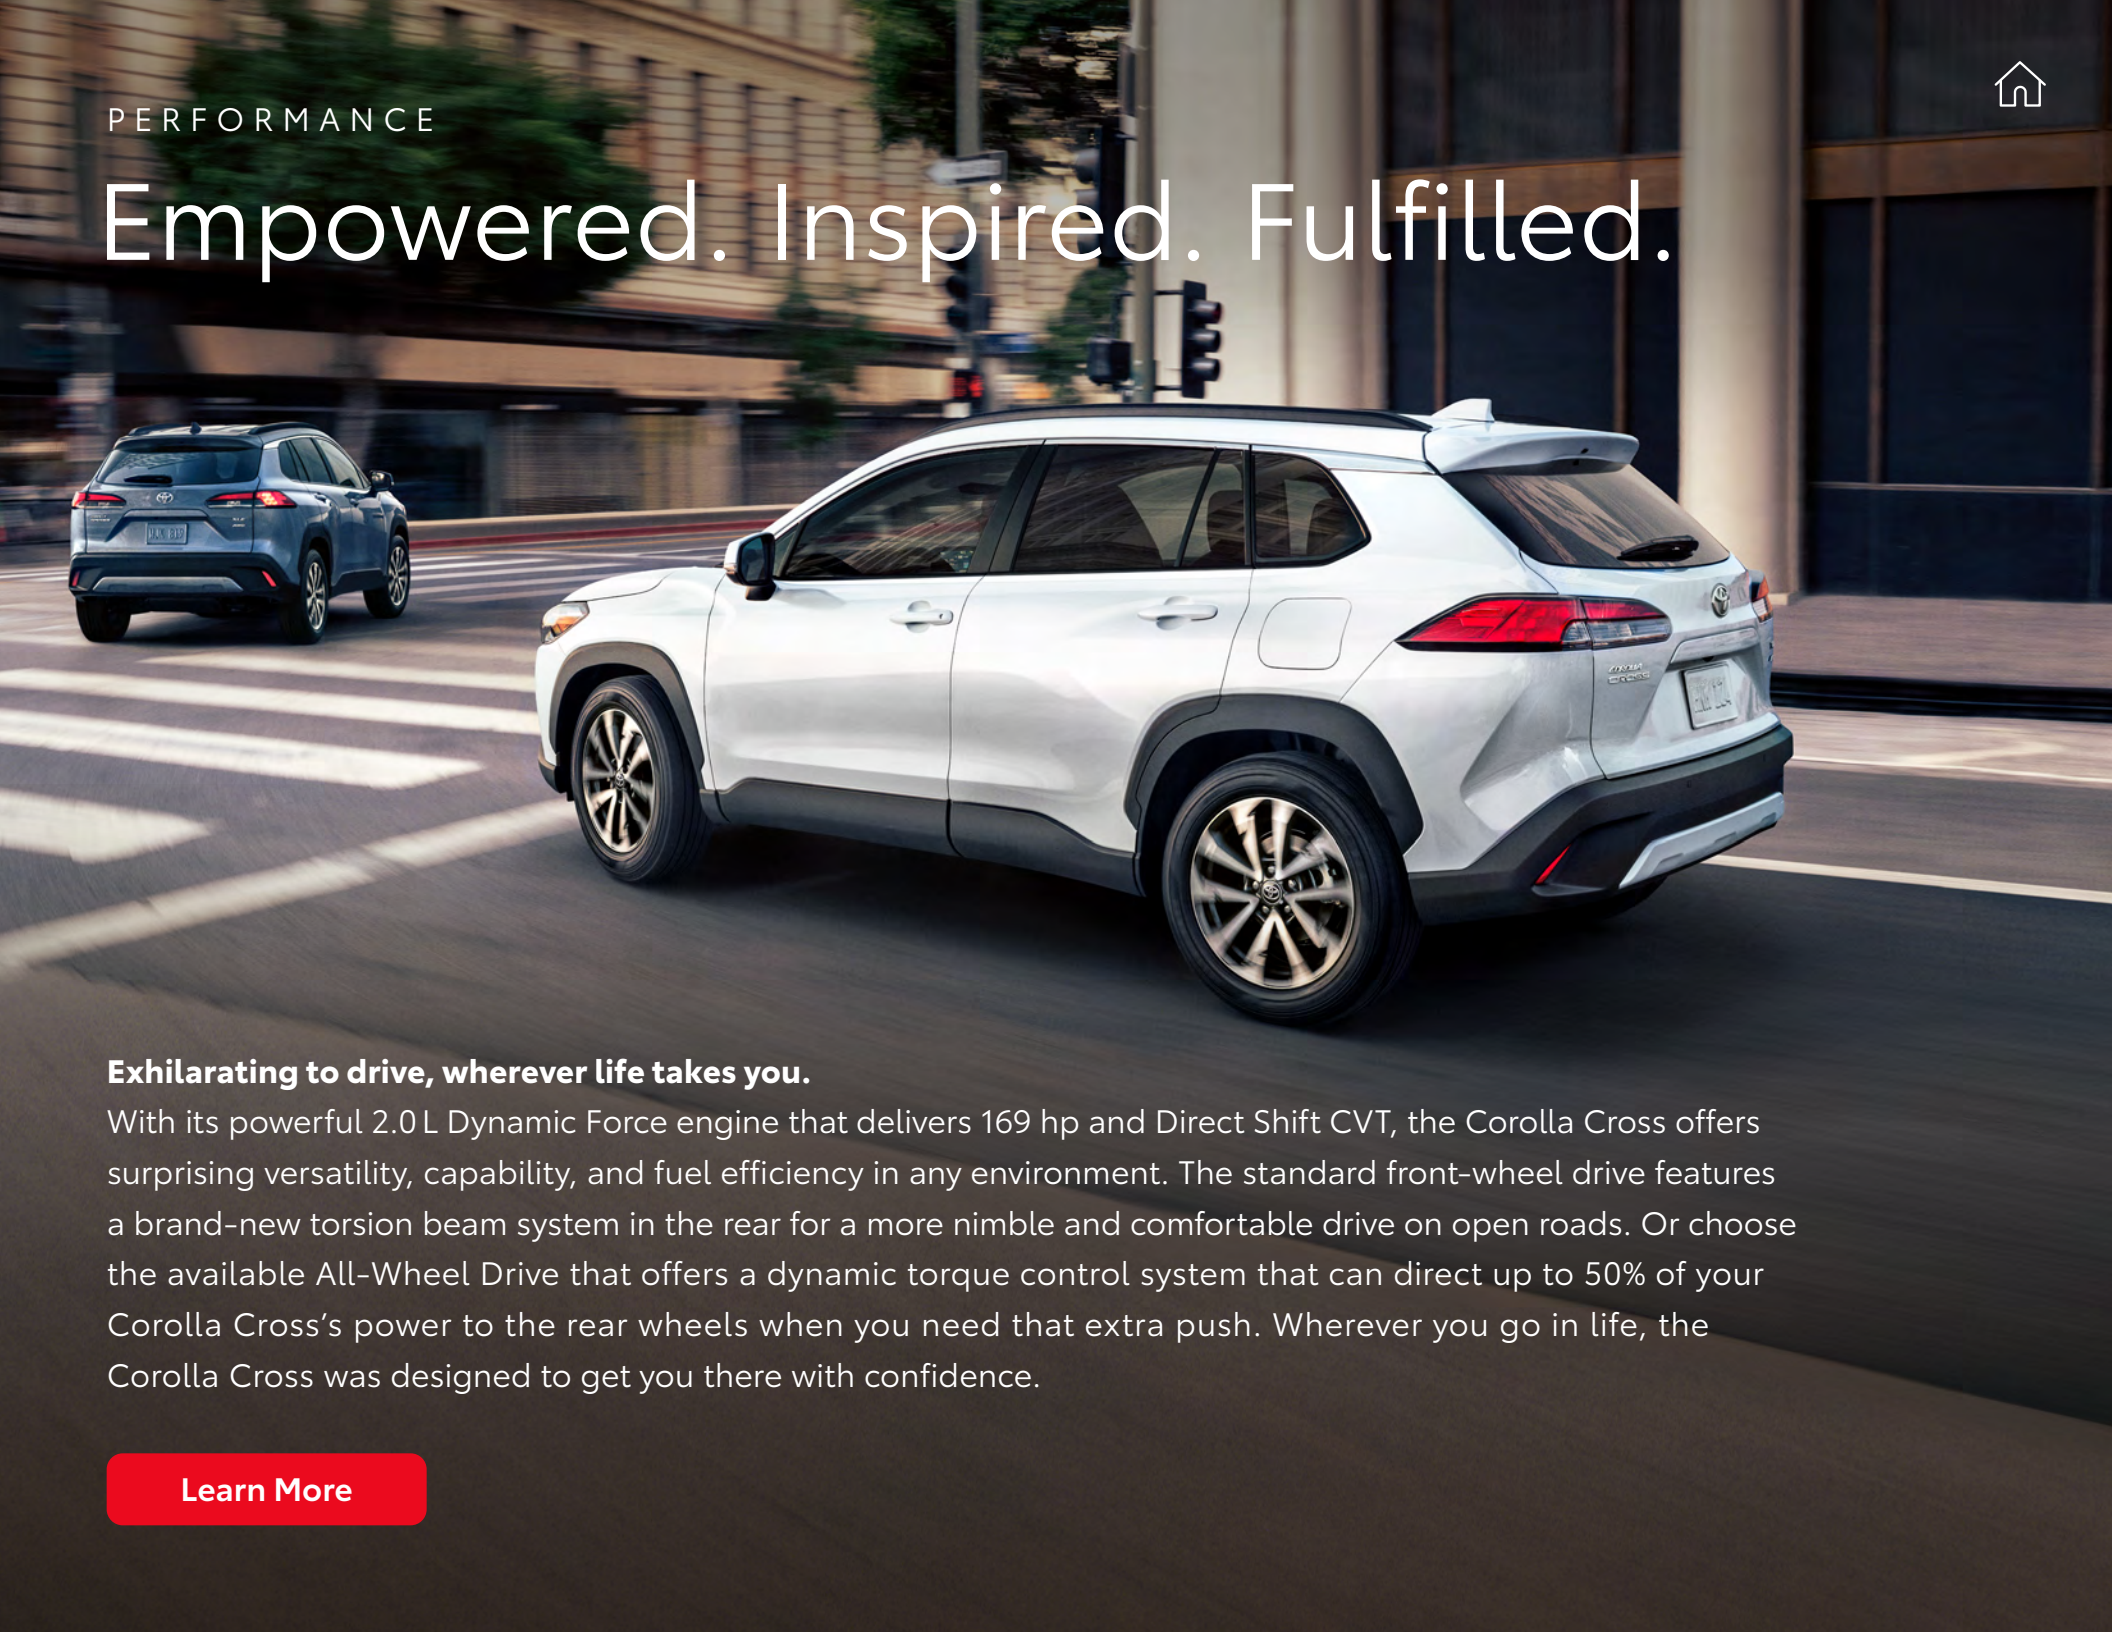
Qi WIRELESS CHARGING[4]

Simply place your Qi compatible device on the available Qi wireless charger for a quick and easy charge.

Learn More

PERFORMANCE

Empowered. Inspired. Fulfilled.



Exhilarating to drive, wherever life takes you.

With its powerful 2.0 L Dynamic Force engine that delivers 169 hp and Direct Shift CVT, the Corolla Cross offers surprising versatility, capability, and fuel efficiency in any environment. The standard front-wheel drive features a brand-new torsion beam system in the rear for a more nimble and comfortable drive on open roads. Or choose the available All-Wheel Drive that offers a dynamic torque control system that can direct up to 50% of your Corolla Cross's power to the rear wheels when you need that extra push. Wherever you go in life, the Corolla Cross was designed to get you there with confidence.

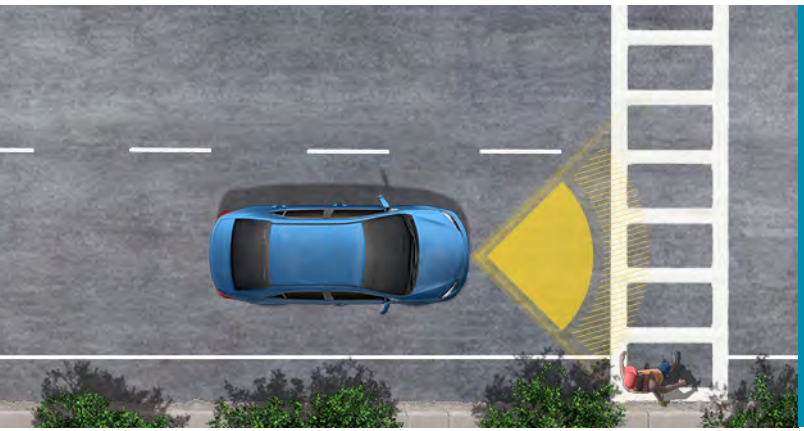
SAFETY

Toyota Safety Sense™

No matter what roads you travel, Toyota Safety Sense™[5] (TSS) 2.0 is always there to help keep you – and those around you – as safe as possible. It's an advanced suite of innovative safety features that comes standard on the 2022 Corolla Cross, and it is designed to help protect drivers, passengers, pedestrians, and people in other vehicles from harm.

Learn More



PRE-COLLISION SYSTEM WITH PEDESTRIAN & BICYCLE DETECTION[6]

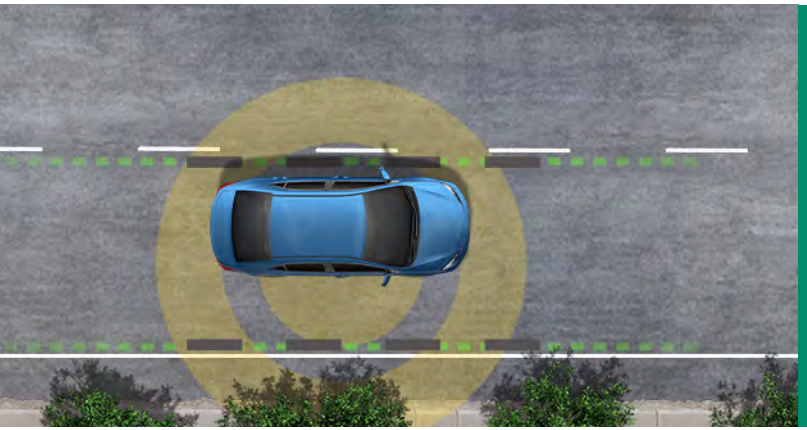
It provides collision avoidance or collision mitigation support in speed ranges where frontal collisions are likely to occur. The latest system has enhanced low-light capabilities to help detect pedestrians at night. In certain conditions during the day, the Pre-Collision System with Pedestrian and Bicycle Detection may also help to detect leading and crossing cyclists and help prevent or mitigate a collision.

AUTOMATIC HIGH BEAMS[7]

Designed to detect oncoming and preceding vehicles' lights and depending upon the circumstances, Automatic High Beams can switch between high and low beams for you.

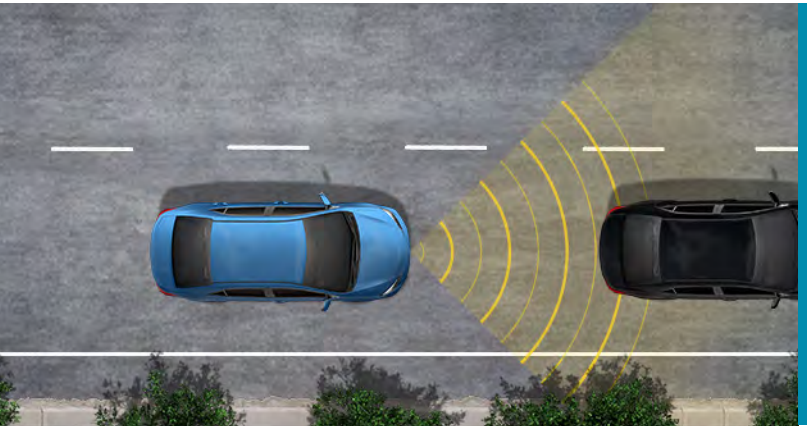
STANDARD TOYOTA SAFETY SENSE™ 2.0

Learn More



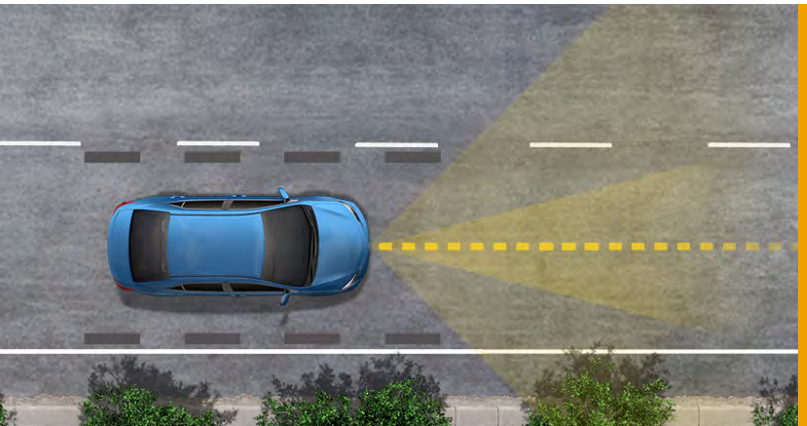
LANE DEPARTURE ALERT WITH STEERING ASSIST[8] & ROAD EDGE DETECTION

It alerts you if you start to drift out of your lane when visible lane markings or the road edge is detected. The Steering Assist function may also provide small corrective steering inputs.



FULL-SPEED RANGE DYNAMIC RADAR CRUISE CONTROL[9]

Dynamic Radar Cruise Control (DRCC) uses vehicle-to-vehicle distance control, which adjusts your speed, to help you maintain a preset distance from vehicles ahead of you that are driving at a slower speed. DRCC uses a front-grille-mounted radar and an in-vehicle camera designed to detect vehicles and their distance.



LANE TRACING ASSIST[10]

It provides steering support to help the driver keep the vehicle centred in its lane when Dynamic Radar Cruise Control is in operation.

Financial Services

(1) Driving while distracted can result in loss of vehicle control. Some features may be locked out while the vehicle is in gear. To reduce risk of accident while driving, exercise care when using the systems (even with the voice commands) and obey all local laws concerning use of the systems while driving (as some laws prohibit the use of electronic devices while operating a vehicle). Once the Connected Services by Toyota trial subscription expires, paid enrollment is required. Apple CarPlay, iPhone and Siri are trademarks of Apple Inc. Android Auto and Google Assistant are trademarks of Google LLC. A compatible customer phone pairing is required and customers are responsible for all data charges. (2) Services are dependent upon connection to a compatible 4G wireless network, provided by a third-party wireless service provider. Toyota is not responsible for 4G cellular network discontinuance and will not provide compensation for reduced service availability. Based on current information, 4G network availability may end as early as 2029. (3) Do not rely exclusively on the Blind Spot Monitor System and Rear Cross-Traffic Alert System. They are not collision-avoidance systems or substitutes for safe and attentive driving. (4) Qi wireless charging may not be compatible with all mobile phones, MP3/WMA players and like models. When using the wireless charging system avoid placing metal objects between the wireless charger and the mobile device when charging is active. Doing so may cause metal objects to become hot and could cause burns. (5) Drivers should always be responsible for their own safe driving. Please always pay attention to your surroundings and drive safely. Depending on the conditions of roads, vehicles, weather, etc., the TSS systems may not work as intended. (6) The TSS Pre-Collision System is designed to help avoid or reduce the impact speed and damage in certain frontal collisions only. The Pedestrian Detection system is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, driver input and weather, light and road conditions. (7) Automatic High Beam system operates at speeds above approximately 34 km/h. Factors such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn it off. (8) Lane Departure Alert with Steering Assist is designed to read lane markers under certain conditions and provide visual and audible alerts and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. (9) Dynamic Radar Cruise Control is designed to assist the driver and is not a collision-avoidance system or a substitute for safe and attentive driving practices. System effectiveness depends on many factors such as weather, traffic and road conditions. (10) Lane Tracing (Trace) Assist (LTA) is designed to read visible lane markers and detect other vehicles under certain conditions. When potential lane departure is detected, LTA provides a visual warning and either an audible alert or vibration in the steering wheel and can apply a slight steering force. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. (11) Not all exterior and interior colour options are available for every model. (12) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors.

Details on the above features can be found in the Owner's Manual or through your local Toyota Dealer.

Toyota Canada Inc. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of publication. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website **toyota.ca** or your Toyota Dealer is your best source for up-to-date information.
